YOUR FUTURE®

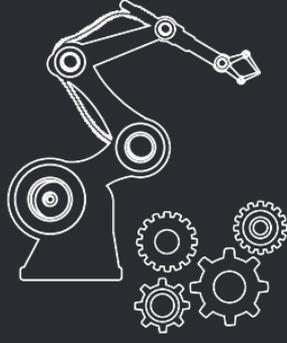

**4 Branches
Worldwide
47 Representatives
in 5 continents**

Meccanotecnica Group is the world's leading manufacturer of automatic book-sewing machines and lines. We specialize in both offset and digital print finishing solutions for industrial book production.

4000+
**installations
worldwide**

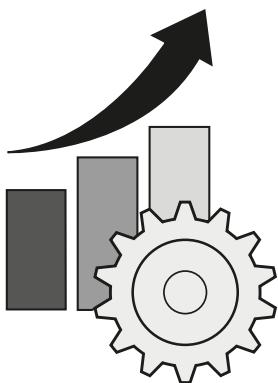

in-house **Critical Parts** manufacturing facility

State-of-the-art technology = Higher quality for our customers

Meccanotecnica Group has a dedicated facility for the in-house production of all major components. In our dedicated machine shop, several fully-automated CNC centers produce critical components, guaranteeing the highest quality control in every phase.

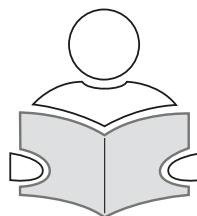

More productivity

highly automated machines

Short learning curve

since **1964**

after-sales team

Meccanotecnica and its four global branches have always followed a customer-centric policy.

We believe in the importance of customer satisfaction, and our after-sales team is focused on meeting customer needs first.

Moreover, the highest manufacturing quality and standards guarantee strong machine reliability and outstanding up-time, resulting in higher production efficiency and a quicker ROI.
